

DETECTOR

VMX10 – Large Loop Metal Detector

Applications

Handheld
Large loop

Types

Metal detectors (MD)

Last update

01/01/1970

General description

VMX10 – Large Loop Metal Detector Large Loop Metal Detector for Detecting UXO

Working characteristics

Able to be carried and operated by one or two people Standard configuration with 1 x 1 m, 1 x 2 m or 2 x 2 m coil sizes – Customer-specific configuration available Electronics unit with OLED display and high comfort Highly efficient soil compensation Selection of 14 measuring ranges for object-based suppression of sources of interference Optionally available VALLON software for data acquisition with associated hardware Optionally available wheel set for search tasks covering wide areas

Radio, audio, visual, sensitivity data

Transmission frequency	0.00 kHz
-------------------------------	----------

Power supply data

Battery	VAP3 7.4 V/5.4 Ah lithium polymer rechargeable battery
Low battery alert	1
Rechargeable	1
Operating time	20.00 hours
Operating time information	8 - 22 hours
Battery charger provided	1

Dimensional data

Length	2000.00 mm
Weight	22.40 kg
Search head size	2000.00 mm
Shape	rectangular
Transport case provided	1
Transport case weight	10.12 kg

Factory support data

Factory support	Vallon GmbH
Warranty	12 months
Water resistant	1
Temperature limitations	IP54, -31 °C to +63 °C

Price

Base price

0.00 €
