

Armadillo

Applications

Handheld
Protective clothing

Types

Metal detectors (MD)

Last update

01/01/1970

General description

ROFI Armadillo consists of a vest unit covering the upper body, shoulders and neck, and a lower protection panel that cover the abdomen, sides and groin.

Working characteristics

The ROFI Armadillo vest provides the best protection combined with high comfort and flexibility to work freely in the mine field. The design facilitates protection for the deminers when in upright position operating the metal detector, as well as in both squatting and kneeling position during prodding. To ensure best possible comfort, the Armadillo comes with a stand-off liner and a special ventilation channel.
